

Custom Peptide Synthesis

Competitive pricing and quality you can rely on!

Through constant innovation, **abm** has developed proprietary technologies that allow us to provide the highest quality custom synthetic peptides at the most competitive prices. Pricing is based on amount and purity of peptide requested and includes cost for purification and mass spectrum analysis at no additional cost.

High Quality

Peptides analyzed by Mass Spectrum and HPLC. QC data provided to you.

Flexibility

Synthesize any peptide in amounts ranging from mg to kg.

Fast Delivery Time

For most peptides 6-30 amino acids in length, typical turnaround time is 3 weeks.

Modifications

Peptide modifications are possible.

Custom Protein Production

abm offers custom protein production services - simply provide the sequence and we'll make it for you! Request your project quote, today!
